# Going to the venue

I will be visiting KidsSTOP™.

I am going to watch a show called Sky's the Limit.

The show will be 90 minutes long.

# Before entering the space

The staff will greet me and check my hands and mouth with a flashlight.

# Before entering the space

The staff will also sanitise my hands.

# Before the show

If I need to use the toilet,  
I will let my teachers or  
parents know.

# Before the show

I can bring my communication cards to ask for help.

# Before the show

I can ask for an ear protector or ear plugs if loud sounds bother me.

# Before the show

I will make a time tickler and carry it with me during the show.

# The start of the show

This is the show space.

I can sit on the coloured mats.

# During the show

I will be asked to move around.

# During the show

If I need a break, I can ask my teacher or parent to bring me to the calm room.

I can go back to the show when I am ready.

# During the show

This is what the calm room looks like.

# During the show

There are bags with things I can use to help me relax.

# The show characters

There are 6 characters in the show.

I can listen to them and do what they ask.

# Characters 1, 2 and 3: The students

Mei, Kai and Jaymie are good friends.

They teach me that "big ideas need many hands".

# Characters 4, 5 and 6: The inventors

Joseph Montgolfier, Wilbur Wright and Mo-Tse are inventors from the past.

They will teach me how things fly.

# End of show

When the show is over, there will be bubbles.

I can pop the bubbles and clap for the characters!
