

**Title of Research Project**

Name of Individual/ Team Members

**1. Background and Purpose of Research**

[This section includes theoretical background from literature review.]

**2. Hypothesis**

**3. Method and Materials**

[This section includes the experiments, techniques or modes of inquiry conducted during the research. If assistance was provided by mentors, especially in projects that involve potentially hazardous biological agents or hazardous chemicals/equipment, it is important to mention those steps carried out by the mentor.]

**4. Results and Discussion**

[Data collected should be presented in tables, figures, graphs and/or diagrams with appropriate headings/labels. The sources of these data, whether generated by student or by others, must be acknowledged. Statistical analysis should be carried out, if appropriate.]

**5. Conclusion and Recommendations for Future Work**

**6. References**

**7. Appendices**
