

Singapore Science and Engineering Fair 2020 Awards

JUNIOR SCIENTIST <u>PROJECT</u> COMMENDATION AWARDS		
S/N	Project ID	Project Title
1	JBI003	In-vitro Propagation of Bulbophyllum fascinator
2	JBI010	Investigation of Surface Treatment on Biofabricate Leather made from Kombucha

JUNIOR SCIENTIST <u>PROJECT</u> MERIT AWARDS		
S/N	Project ID	Project Title
1	JBI006	Investigating the anti-bacterial, anti-fungal and immunostimulating properties of Lumbricus Terrestris
2	JBI020	Investigating the anti-bacterial, anti-oxidant and wound healings effects of Areca catechu
3	JMA001	Assignment of Competition Teams to Judges
4	JMA002	Finding Colourful Trails

JUNIOR SCIENTIST <u>VIDEO</u> COMMENDATION AWARDS		
S/N	Project ID	Project Title
1	JBI012	The efficiency of using biowaste as a greener alternative to conventional fuel
2	JBI029	How yeast cells repair DNA double strand breaks

JUNIOR SCIENTIST <u>VIDEO</u> MERIT AWARDS		
S/N	Project ID	Project Title
1	JBI003	In-vitro Propagation of Bulbophyllum fascinator
2	JBI021	Investigation on type of biomass that yields the most bioethanol
3	JCH005	Investigation of the effectiveness of household products in cleaning crayon stains
4	JCH007	Effect of Saturation in Saponified Carboxylic Acid Chains on their Effectiveness as Soap
5	JCH011	Investigation on the Effectiveness of Human Hair in Adsorbing Gutter Oil
