## **Synopsis** (Minimm 60 students)

### “One World, One Sky: Big Bird’s Adventure”

You don't need a spaceship to learn about the sun, moon, and stars—just a little imagination! When Big Bird, Elmo, and their friend from China, Hu Hu Zhu, take an imaginary trip to the moon, they learn amazing things along the way.

### Exploring the Planets

From the Earth, most planets look simply like bright stars moving across the night sky. But as you get up close, they are all as different as you and me! What lies below the clouds of Venus? What does it look like to stand on Mars? What makes up the beautiful rings of Saturn? Let our **Science Educator** bring you on an interplanetary journey through our Solar System!
