

# Science Centre Singapore Equatorial Sundial Template Instructions

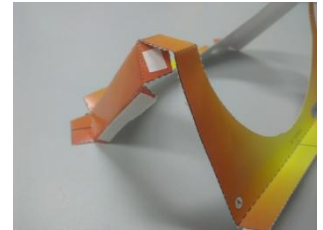

Carefully remove all the pieces

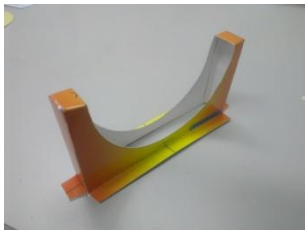

Remove the centre of Part A and use as a base later

Fold Part A along the dotted lines

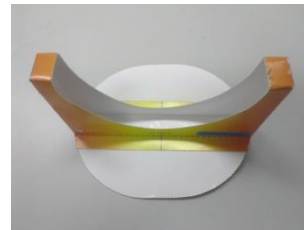

Use glue or double-sided tape to stick the sides together

Fold up the base tabs of Part A

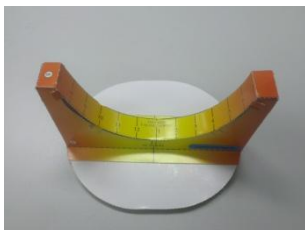

Glue or stick double-sided tape under the base tabs

Stick Part A to the centre piece or a piece of card

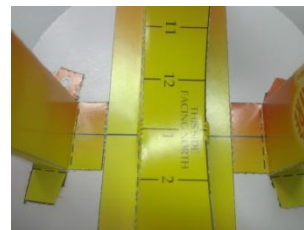

Fold down the tabs on the time bar (Part B)

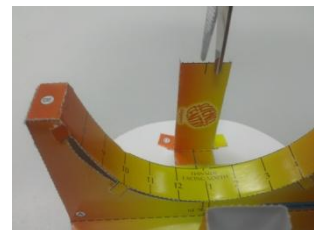

Stick Part B to Part A

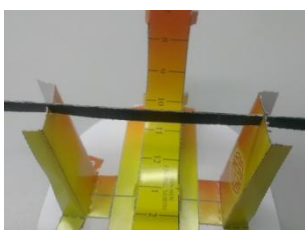

Fold tabs on Part C & D and stick to base either side of Part A

Ensure lines on the base of Parts A, C and D are in line

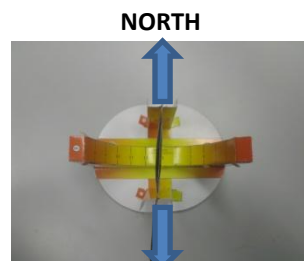

Cut a small slit in the top of Part C & D

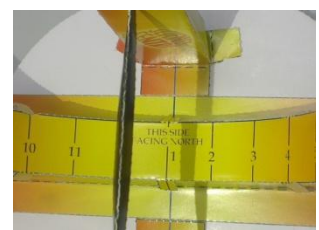

Fold part E and place in side slit in Part C & D

Finished model

Place sundial in sunlight so that part E points North and South

Position of shadow indicates approx. local time
