

My Visit to
KIDSSTOP™

Brought To You By
Science Centre Singapore

I am going to visit **KidsSTOP™** today.

I can learn all about Science and have lots of fun at KidsSTOP™.

First, the **staff** at KidsSTOP™ will check my temperature and scan my TraceTogether token.

I may need to queue up with my family to enter KidsSTOP™.

STAFF

The **staff** will scan my tickets so that I can enter KidsSTOP™.

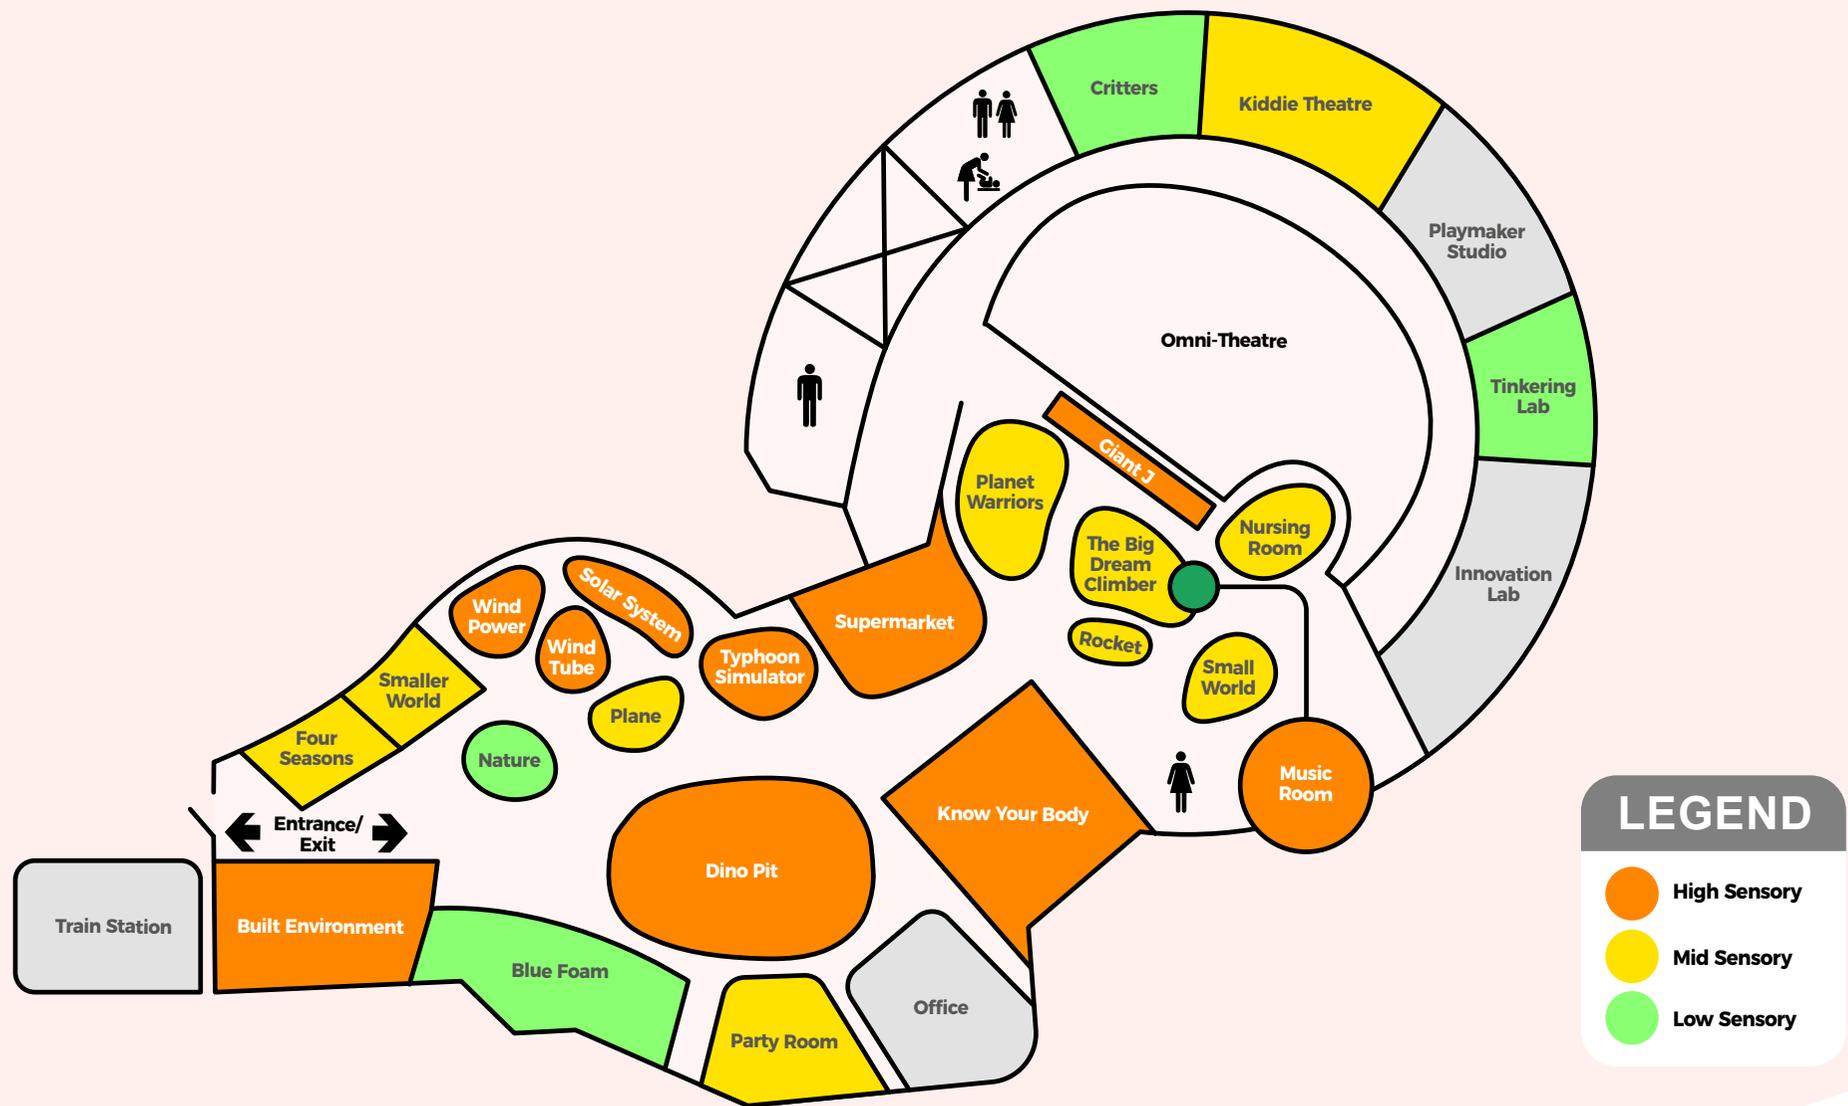

The **staff** at KidsSTOP™ will check my hands and mouth with a torch.

Next, they will sanitise my hands.

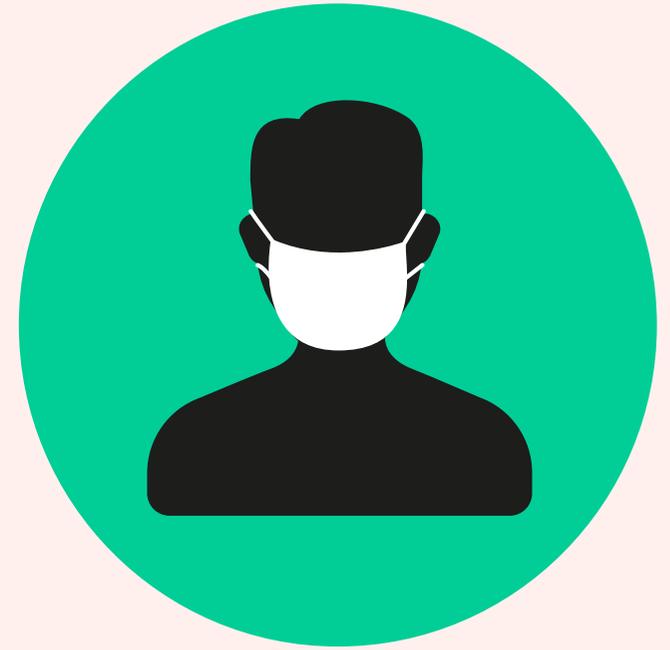

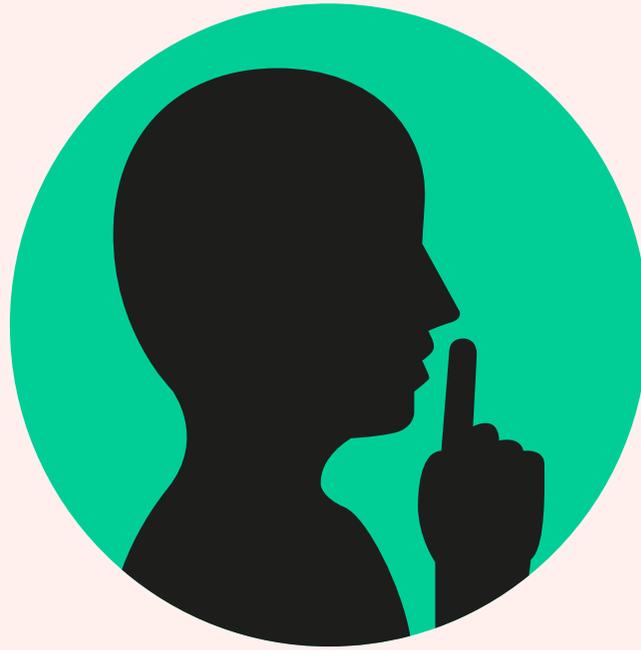

There are many zones to visit in KidsSTOP™. I will need to take turns to see things and do things at KidsSTOP™.

I can read the KidsSTOP™ map to find out what I can see and do. If I see the high sensory areas, I know that they can get very noisy as they can be crowded sometimes.

The **KidsSTOP™ staff** can help me if I am lost or have questions. They wear yellow vests.

It can be exciting at KidsSTOP™. I will do my best to stay calm and speak in a quiet voice at KidsSTOP™.

I will walk and not run. I will also put my mask on at all times.

This is **Built Environment**.

I can use crane and crank to transport balls. I can also move the gears.

This is **Dino Pit**.

I can dig for dinosaur bones here. The different tools can help me find the dinosaur bones.

This is The Supermarket.

I can go shopping for groceries. I can also learn more about healthy eating.

This is **Dream Climber**.

I can climb the platforms and explore. I will need to wear **socks** at Dream Climber.

I will tell my family if I need to go to the toilet. I will have to line up if there are other people in the toilet.

It is time to say goodbye. I can leave KidsSTOP™ with my family through the exit.

The background is a vibrant, abstract composition of geometric shapes. It features a large, bright green area on the left and bottom, contrasted with a large, bright red area on the right and top. Interspersed throughout are various grey and white polygons, some solid and some outlined, creating a complex, layered effect. The overall style is modern and minimalist.

Thank you
