

My Visit to
**SCIENCE CENTRE
SINGAPORE**

Today, I am visiting **Science Centre Singapore**. I will get to learn about Science through the different exhibits. I am going to have so much fun!

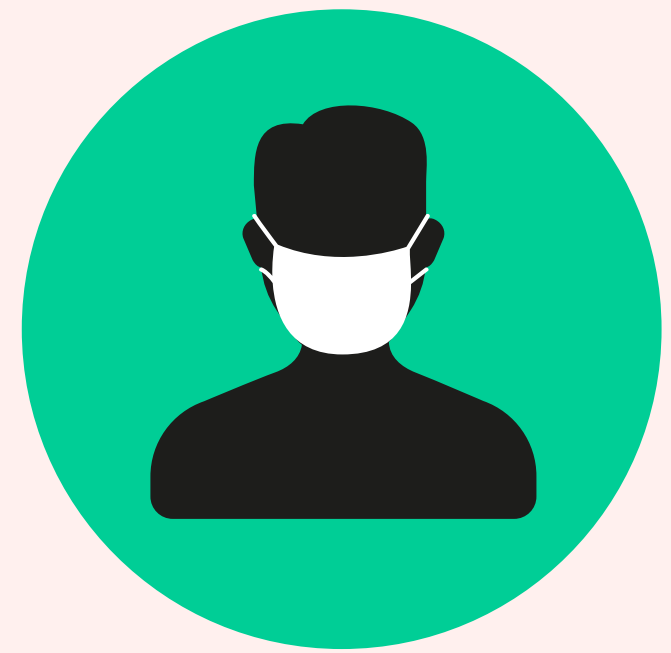

First, I will take my temperature and scan my TraceTogether Token.

Then, I will walk to the entrance of Science Centre Singapore.

Next, I will go to the ticketing counter to scan my ticket. If I get lost or need any help, I can go to the **staff** for help.

I need to take note of the rules in the Science Centre Singapore.

1. The cafe is the only place where I can eat or drink.
2. I should put my mask at all the times.
3. I need to stay close to my parents or teachers at all times.

If I need to use the **toilet**, I will let my parents or teachers know. They will show me how I can get to the nearest toilet.

This is **SCIENTIST FOR A DAY**. I can do many experiments here.

The **staff** can teach me how to do the experiments.

I am at the **ANIMAL ZONE**. I can learn more about animals here.

I will watch the animals quietly. Animals do not like to be disturbed. I will not hit on the glass because it disturbs the animals.

This is **The Tinkering Studio**.

I can also make a flying machine with paper. I can let it fly at the **Wind Table**.

This is **E-MMERSIVE EXPERIENTIAL ENVIRONMENTS.**

In **E-MMERSIVE EXPERIENTIAL ENVIRONMENTS**, I can see projections all around me. I can touch some of the projections.

This is **Earth Alive**. I can learn more about planet Earth.

At **Earth Alive**, I can touch the exhibits and learn how movement on the Earth surface shapes its environment.

Some of the Earth's movements can cause natural disasters, like earthquakes. I can press the **buttons** to find out more.

I can create solutions to withstand or reduce the damage of natural disasters. I can press the buttons at the **workstation** to test how my creations work.

This is **Coffee Bee**. I can buy food and drinks from **Coffee Bee**.

I can choose what I want from the menu. I have to join the queue to place my order and make payment.

Next, I will collect my food from the **Food Collection Counter**.

This is the **EXIT**. The **EXIT** is near the CURIOSITY shop.

This is **CURIOSITY** shop. I will leave Science Centre Singapore through **CURIOSITY** shop.

I can buy souvenirs at **CURIOSITY** shop if I want to. I will say thank you to my parents or teachers at the end of the visit.

Thank you
